Request to Open an International Chapter

FAQ: I want to start a chapter in Indonesia!

Chapters vs. Branches

- Due to a variety of constraints we cannot license chapters outside of the United States at this time.
- If you spend significant time in the US and would like to join a chapter, email chapters@climatereality.com
- Climate Reality Indonesia works hand-in-hand with designated volunteers as regional coordinators who help organize Climate Reality Leader activities. Email Indonesia@climatereality.com if you fall within our branch office purview.
- If your country is not part of a branch, we will still work to provide support. Email support@climatereality.com with your questions.

What Support does a Branch Provide?

- The Climate Reality Project's global branches are your first line of engagement in your country or region.
- They can connect you with other Climate Reality Leaders, help publicize your work, and help you find partners for giving presentations.
- Some branches are equipped to provide guidance on policy, grassroots organizing, education, civic engagement, and more.
- Climate Reality Indonesia is particularly equipped to:
 - Organize joint activities with climate stakeholders
 - Involve Climate Reality Leaders in its activities

How Can I Get Involved in Branch Programs?

Most Climate Reality branches have developed separate programs that need the help of Climate Reality Leaders – and offer opportunity for impact.

Here are Climate Reality Indonesia's current programs:

- Climate Reality Leaders Meetings
- National and International Events
- CR Indonesia Branch Staff Meetings Offline
- Flood Risk Reduction Workshop
- Climate Change for Decision Makers
- Sustainable Fashion
- Theater Performance on Climate Crisis
- Youth Leadership Camp for Climate Crisis (YLCCC)
- YLCCC School/Campus Activities
- Climate Strike/Friday for the Future

Does The Climate Reality Project Provide Funding?

I have a project idea – can Climate Reality fund it?

That depends! A few branches have secured separate funds for small grants in the past. Your branch will announce through email and other communications if and when such funds have been secured.

In the last 10 years, Climate Reality Indonesia has been working with state actors (government) and non-state actors to organize activities. Most activities are organized through in-kind contributions by its partners, or Climate Reality Leaders.

I/My Initiative Want to Partner with Climate Reality

The Climate Reality Project takes its partnerships as a responsibility to maintain strategic programmatic connections and follow through on shared initiatives. We are therefore very selective in who we choose to partner with and for which programs and will partner with select organizations when we know we will have the capacity to fulfil our responsibility. We do not lend our logo to programs and initiatives for which we will not have the capacity to take part as an active partner.

Write to Indonesia@climatereality.com to inquire about partnering with a branch office, or partners@climatereality.com for the global organization.

Requests for Al Gore

Climate Reality receives many requests for our Founder and Chairman Al Gore, and can fulfil very few of them. Please speak with the branch office first to determine the feasibility of your request.

Reality Hub Questions and Password Resets

Please write to support@climatereality.com with questions related to the Reality Hub platform.

I Have a Question for the Global Team, Can You Put Me in Touch?

Our branch offices are specially equipped to work with Climate Reality Leaders on issues germane to their country or region. However, we recognize that some questions and issues are global in nature. Please write your branch first at Indonesia@climatereality.com to determine who is best suited to answer your question, and the branch office can connect you with the relevant contact at Climate Reality's Headquarters.

When is 24 Hours of Reality? Is it Still a Television/Online Broadcast?

One of The Climate Reality Project's flagship programs, *24 Hours of Reality* was a 24-hour broadcast all about the climate crisis and its solutions. In 2019 Climate Reality took a more action-oriented approach with *24 Hours of Reality: Truth in Action*, a 24-hour day of presentations around the world where over 2,000 Climate Reality Leaders gave presentations and over 18,000 trees were planted – one for every person who attended a presentation and registered using an online form. Stay tuned for more information about *24 Hours of Reality* in 2020.

Can I Attend COP26 or Other International Meetings as a Member of Climate Reality's Delegation?

The UNFCCC and other intergovernmental organizations use a quota system for delegation accreditations, and The Climate Reality Project generally receives only a few accreditations which we use for staff and close partners only.

What is Climate Reality's Stance on...

Most of The Climate Reality Project's technology, science, and policy stances were spawned by our Founder and Chairman Al Gore's book *Our Choice: A Plan to Solve the Climate Crisis*. However, since it has been over a decade since publication, some of those stances have been updated. We are currently working to synthesize those stances in an educational resource for Reality Hub. Please keep an eye out for updates.

In the meantime, if it is imperative for your presentations or partnerships to know an official stance, please write to support@climatereality.com if you are a trained Climate Reality Leader, and info@climatereality.com if you are not, and your email will be routed to the correct department.

How Do I Become a National/Regional/Thematic Coordinator for my Branch, and How Do I Contact My Coordinator?

Each branch that has established a coordinator system has its own method of selecting coordinators. Please email Arifah Handayani at arifah.handayani@climatereality.com or send a WhatsApp message at +62if you have questions or comments.
